

Preceptorship Champions

Preceptorship Champions are like buddies! Champions are previous preceptees who have completed the programme, who can provide you with some guidance and support. We know it's nice to hear from preceptees who have completed Preceptorship as it can be an overwhelming experience, but we promise you'll begin to notice the benefits in no time!

The Champions Role...

They are there to provide informal support with your Preceptorship	
Share top tips/useful resources that helped them complete Preceptorship	
Help facilitate breakout room discussions	
Facilitate 'Preceptorship Clinics' once a month (half an hour before the monthly Preceptorship Meetings)	
They do not replace your preceptor, they are an additional form of support	

You will be assigned your own Preceptorship and will be provided their email address on your induction. Please feel free to reach out to them or us at ANY point.

We are looking forward to supporting you through your Preceptorship journey!
